

Group 2.

(Write your answers in the space below the questions.)

1. What do you think the cyclists should do when they first arrive at the scene of the accident?

2. Should the unconscious driver be moved from the vehicle before help arrives? Give your reasons.

(There may be more than one correct answer for this depending on the circumstances!)

3. Should the cyclists attempt to do any first aid on the driver and passenger from the vehicle?

www.firstonscene.org.uk

Would **you** know what to do ?

Group 3.

(Write your answers in the space below the questions.)

1. What did the male cyclist do before he dialled '999' which helped when he spoke to the operator?

2. What information did the police officer in the control room ask for from the cyclist after he had dialled '999'?

3. How do you think someone can help a controller when dialling '999'?

www.firstonscene.org.uk

Would **you** know what to do ?

Group 4.

(Write your answers in the space below the questions.)

1. What do you think the police's role was at the scene of the accident?

2. What did the ambulance and fire services do?

3. Why was there always someone holding the drivers head throughout the removal of the driver from the car?

www.firstonscene.org.uk

Would **you** know what to do ?

Group 5.

(Write your answers in the space below the questions.)

1. Which emergency service do you think you should ask for at the scene of a traffic collision? Give your reasons.

2. What would you do if your phone had no credit and/or you had no signal on your phone and you had to dial '999'?

3. If the cyclists had no phones, what could they have done to summon help?
